Hi Suddha-

I forwarded your questions onto Rich, hopefully he will get back to you. My initial impression is yes, you should enter that data as long as it's not a duplicate of other data you've found (i.e. if you find the original reports from the lab, use those not this spreadsheet). Also, I think there is a slight variation in the two addresses. Saunter is RR 6, Box 6147 and is Ex. 6 - Personal Privacy I would assume they are two separate addresses but hopefully Rich can clarify that. I'll be on the road most of the day tomorrow so if you need anything just give me a call, I might not be checking my email too regularly.

Thanks-  
Stephanie
